

#ScoutMeIn

Did you know there are some great tools on Facebook where you can share your love of Scouting?

You can easily add a Scouting-themed frame to your profile pic.

Just go to your Facebook page and then click to edit your profile pic. There is a button to “add frame.”

You can search by typing in Boy Scouts of America and you will find lots of great frame options – include lots of new ones that read – “Scout Me In!”

This is a great way to show your enthusiasm for Scouting – and a great way to invite others to join your unit!
